Get a sheet of paper to write down the last 10 or more games that have been played.

Now write down the matching number of 2 or more for the first 5 numbers.

Now write down the matching powerball numbers of 2 or more.

These are the numbers that come up most in the drawing.

Play them for the next 7 games.

Keep adding more games until you have 5 numbers matching regular numbers of 2 or more and same for Powerball number.

Even though this lottery plan is intended to be very powerful, you will not and cannot win every time. Results vary. Please understand, like all gambling, the lottery is a gamble!
